Professional Summary

Software Engineer with strong expertise using Vue.js and React.js, experienced in building responsive, user-friendly web applications. Proven ability to collaborate across teams, write scalable components, implement testing strategies, and integrate RESTful APIs. Currently expanding into full-stack development.

Work Experience

Software Engineer - Vue JS

July 2024 – Present

Flexicon Solution Inc. – Online Casino Management System

- Developed and maintained a responsive web-based OCMS for administrators and operators.
- Created pixel-perfect dynamic pages based on Figma mockups and reference sites.
- Built reusable UI components using Storybook, with responsiveness via Quasar.
- Implemented end-to-end testing using Cypress.
- Collaborated with designers, backend developers, and QA testers; validated REST APIs via Postman and Mokku.
- Used Git, Bitbucket, and JIRA for version control and issue tracking.

Solutions Developer - React JS

March 2022 – March 2024

Lenovo PCCW Solutions (LPS)

Mandays Calculator Project (Oct 2023 – Mar 2024)

- Set up backend and frontend for user management module.
- Translated mockups into clean, functional code.
- Integrated APIs and implemented toast pop-ups for feedback.
- Performed Jest testing on components.

Hong Kong Provident Fund System (Mar 2022 – Nov 2023)

- Worked on the investment module; translated mockups to code.
- Built reusable, scalable functions and performed Jest testing.
- Integrated APIs using Swagger and collaborated with backend team.
- Addressed code smells and duplications via SonarQube.

Technical Skills

- **Languages:** JavaScript, TypeScript, HTML5, CSS, SCSS, SQL, Java, PHP
- **Frontend:** React.js, Vue.js, Angular, Nuxt.js, Next.js, Ionic, Quasar, Vuex, Redux, Pinia, Tailwind, Bootstrap, MUI, Element UI, Storybook
- **Backend & Database:** MySQL, Oracle SQL, Java, PHP
- **Testing & Tools:** Cypress, Jest, Postman, Mokku, Swagger, Git, Bitbucket, GitHub, JIRA, Jenkins, SonarQube, VS Code, IntelliJ, Figma, Trello, Vercel

Education

Gordon College

2017 - 2021

Bachelor of Science in Information Technology

Olongapo City, Philippines

Projects

Portfolio

Built with React, TypeScript, and Tailwind CSS for a fast, responsive experience. React and TypeScript ensure scalability and maintainability, while Tailwind CSS enables clean, customizable styling.
